

Demonstração de utilização

- Lembrando que para que o paciente seja apresentado no sistema de classificação, o paciente deve ter senha vinculada ao registro da triagem.

The screenshot displays the Philips Tasy - Prontuário Eletrônico Paciente - PEP interface. The main window is titled "Triage" and contains a form for patient registration. The form includes fields for Patient ID (343716), Patient Name (Paciente Teste), Age (24a 2m 13d), and Triage Start/End times (20/05/2024 14:40:50 to 14:57:43). It also features dropdown menus for Status (Triage), Classification (Emergência), Priority, Clinical (Clínica Médica), Sector (Pronto Atendimento), and Queue (HSR - Recepção PA). A red box highlights the "Senha" (Password) field, which contains the value "PS1". Below the form, there is a "Total 36" section with a color-coded bar indicating patient status: Em atendimento (green), Triage (red), Atendido (blue), and Cancelado (red). The interface also includes a sidebar with navigation options like "Recém-nascido", "Pronto Atendimento", "Same", and "Pendências". At the bottom, there is a status bar with information about the user (guilhermeguedes), the system (NBK076 - Pronto Atendimento), and the time (4.00.1832.39 UTC-03:00).
